No House of Lords for the Old Soldiers

GENERAL LYON POST DENOUNCES

The Grand Army Boys Are Opposed to Department Commanders Being Made Life Members of the National Body, and Will Fight For Their Opinion Next Week.

At the meeting of the Grand Army last evening a set of resolutions were passed which will be heard all over the state before the state encampment is over next week.

The old soldiers have been dissatisfied for some time because there is a rule which makes every department commander a life member of the national encampment, and does not allow the rank and file to find a place in what they believe should be an elective body. The soldiers have dubbed that body the house of lords, and in various other ways shown their disapproval of the plan. At the meeting last night resolutions were presented by a committee condemning the system, and urging all others to join in the condemnation. They will be printed on slips of paper, and taken to the state encampment at Sandusky next Tuesday. There the soldiers will move every power to have that body endorse the action, and a number of active workers from this city will be there to help it along. Commander Allison, the delegate Thomas Lloyd, W. H. Surles, of the commander's staff, will go officially, and several others will be there as visitors. The complete list has not yet been made up.

It is a noticeable fact that General Lyon post takes the initiative in many moves of importance in Ohio. The veterans are ever alive to the interests of the organization, and are not afraid to say what they think.

MR. POWER OBJECTS.

He Says He Had No Dispute With Mr. Powell.

James Power telephoned the NEWS REVIEW today suggesting that this paper deny the statement in the issue of yesterday about a passage of words between himself and John Powell at the last meeting. As the authority of the NEWS REVIEW reiterates that what he told the NEWS REVIEW yesterday is truth without any fiction, the NEWS REVIEW can not understand why it should comply with the demands of the Populist editor. Mr. Power intimated that no more news would come from Trades council for the NEWS REVIEW if the demand was not complied with. The NEWS REVIEW has reason to believe that it has friends among the members of the council who are fair, honest men and will not permit discrimination.

"The newspapers are not held down by Trades council," said a working member to a NEWS REVIEW man today. "The constitution does not provide for a press committee, but the members are privileged to give out such facts as they believe will benefit the council and its work. I can point now to a publication which struck at the root of a crying evil, and did a world of good. Newspaper representatives are admitted when secret matters are not being discussed according to the constitution. I want you to know Trades council is not run in the interest of Mr. Power or any other individual."

CREDIT FOR MR. ANDREWS.

Attorney Brookes Thinks the Employment of Conservative Men Is Good.

In conversation with J. H. Brookes last night a reporter learned that he was very well satisfied with the result of the West trial, and was anxiously awaiting the outcome of the Martin case. This, he believes will be a hard fought, stubborn battle, and contending sides will go their level best for their clients. Incidentally, Mr. Brookes remarked that Superintendent Andrews deserved credit for the manner in which the long line is operated. Months go by now and not an accident of any consequence is noted, the motormen being safe, conservative men, who do their duty, and under instructions never resort to recklessness. He believes that Mr. Andrews deserves credit for the employment of such men.

GENERAL BUSHNELL COMING.

Our Candidate For Governor Expects to Call Here.

A well known traveling salesman who knows how to sell pottery is in receipt of a letter from General Bushnell in which the next governor of Ohio recognizes with a neatly put

compliment the power of the traveler in politics. Incidentally the general remarks that he hopes to be in Liverpool, which means that he will probably speak here during the campaign next fall. The salesmen of East Liverpool are no small factor in the politics of Ohio, each one having his friends in all parts of the state, and knowing well how to talk politics when the right time arrives. General Bushnell appreciates their importance.

MAY SETTLE IT.

Trustee Albright Will Not Prosecute in the Allison Case.

There is now an avenue of escape open to John Allison, who was captured Thursday night. Trustee Albright has decided not to prosecute since he recovered his stolen buggy, and Allison can go if he pays a fine and costs.

When Allison's companion, Willie Farmer, inquired gently of Mayor Gilbert this morning how much it would cost to get his friend Allison out of the coop he was informed that it would require about \$35. Whether this includes the cost of repairs on the jail is not stated. Farmer is trying to sell Allison's pony to raise money for his release.

It is worth Allison's time and money if he can secure freedom, as what was looked upon as a joke is a stern reality. He has been in the Ohio penitentiary twice and once in a Pennsylvania workhouse and can, under the habitual criminal act, be sentenced to the pen for life.

HE WAS ACCOMMODATING.

A Motorman Who Would Not Let Them Walk Home.

The Chevalier club spent a pleasant evening at Columbia park last night, dancing the hours away with their lady friends. When the time arrived to go home they had lingered too long, and the last car to the city had gone. Motorman Stodgill was in charge of the car, and while he was not compelled to bring the 30 young folks to the city, he saw their plight and brought them to town. The club appreciate the neat little act, and are saying all sorts of nice things about the motorman.

NO MATTER OF CHOICE.

Potters Must Work All Sorts of Schemes to Get Trade.

"Getting trade is not now a matter of choice with the potters," said a well known potter today, "for the managers must work every corner to get trade now. You would be surprised if you could see the salesmen when they are on the road. There was a time when they could walk into an establishment, show their samples, and take an order, but the best of them will tell you that will work no more. There must be something unusual to tempt buyers to take American goods now."

RECOGNIZED.

John Powell Appointed Organizer of the American Federation.

John Powell, pressman at the NEWS REVIEW, has been appointed district organizer for the American Federation of Labor. There were other candidates for the place, among them being some of the most prominent labor leaders in the city, but President John McBride notified Mr. Powell this morning that the appointment was his. Since Gompers was superseded by the present incumbent there has been no organizer in this place, the work of the Federation being in good condition.

THE OLD CHARGES.

Mrs. Ida McKenzie Asks For a Divorce.

Special to the NEWS REVIEW.
Lisbon, June 8.—The petition in the case of Mrs. Ida McKenzie asking a divorce from her husband was filed here today. The woman claims that they were married in December of 1887, and have one child, who is now five years of age, which she wants to keep. The husband, Charles McKenzie, she charges with desertion and failure to provide. They are from East Liverpool, and were married there.

Come Again.

Manager Murrin, of the New Brighton base ball club, accompanied by Doc Winans, one of the Beaver Valley's best known lovers of legitimate sport, paid the NEWS REVIEW office a pleasant visit this morning. Both gentlemen expressed themselves as highly pleased with East Liverpool.

Put on Your Duster.

In spite of the delightful cool last evening the sun shown hotter than usual today, and the weather men sent out word that another scorcher was on the way. Get your duster and cracked ice.

HE THREW UP HIS HAND

A Horse Reared High in the Air Last Night.

AND A WHEELMAN WAS SAVED

A Narrow Escape From Being Trampled at Fifth and Market Street Mark Thornberry Saved Himself By a Quick Blow.

Mark Thornberry was closer to being a crushed and bleeding mass last night than he has ever been before, but the boy behaved himself better than most men in the circumstances, and saved himself severe injuries.

He was riding a bicycle in the Diamond, and dashed into the open space at Fifth and Market at a good rate of speed. At the same instant a horse driven by Doctor Ikirt came that way, and the spectators stood breathless for an instant expecting to see the boy trampled to death. But he was not that kind of a youth. With a quick upward movement of his hand Thornberry struck the horse on the nose, and the frightened animal reared on its hind feet, standing almost straight in the air. In the meantime the boy was off the wheel, and when the horse dropped his heavy feet only struck the bike, which was badly damaged. The spokes were broken, and the frame more or less injured, but Thornberry had by that quick action saved himself injuries that might have cost him his life. The crowd was large and the excitement great for as much as five minutes.

HURT BY HORSES.

Johnathan Allison Injured in a Runaway.

Johnathan Allison, an aged and respected resident of Grant district, who is known to his many friends as "Uncle Jack," was injured in a runaway yesterday. News of the accident is meager, but the story goes that the team became frightened on a hill not far from the river, and Allison losing control of them they dashed down with terrific speed, throwing him out, and injuring him severely. Mr. Allison is well known in this city.

STILL THEY COME.

Doctor Ogden's Report Shows an Increase.

The report of Doctor Ogden, health officer, shows an increase in the population of Liverpool for the month. There were born 21 males and 11 females, while eight males and seven females died. All the persons to succumb to infirmities were white, and only one of the children born was colored. Consumption continues to do its work, and leads as the cause of death, four people having died from it during the month.

ANOTHER SUIT.

The City Will Likely Be Called Upon to Defend Another Suit.

The word is out that the city will be compelled to defend a claim for damages in the near future. The matter is kept quiet, and the amount is not given out for publication, but there can be little doubt that the move is on. The city will be given an opportunity to pay the bill, and if it is not done suit will be entered at once.

A Negley Man In Columbus.

When prisoners enter the Ohio penitentiary they are turned over to Samuel R. Bishop, of Negley, who takes them to the deputy warden's office, where they are registered. He then takes them to the photograph gallery, where their pictures are taken; then to the state house, where they don striped clothes; then to the bath house, and from there to the hospital, where they go through a physical examination, and are weighed, measured and their age taken, and also questioned as to whether they use tobacco or whisky. They then go to where the rules are read to them; then to the barber shop, where their hair is cut short; then to the chaplain's office, where they tell what religious faith they adhere to, and from there to the idle house, where they remain until assigned work—East Palestine Reveille.

Married at Wellsburg.

The most notable wedding of the season at Wellsburg, W. Va., took place on Wednesday and united the fortunes of Mr. William Thomas Schnauffer, of Marietta, and Miss Ellen Jane, daughter of Mr. and Mrs. G. A. Baxter. The marriage took place in the parlors of the Hudson House. Rev. Robert W. Grange, of Pittsburg, officiated, using the beautiful and impressive Episcopal service. Mr. and Mrs. Schnauffer left for Wellsburg and then took a wedding

trip to Cleveland. Miss Anna L. McGhie, of this city, was among the guests. Mr. Schnauffer is a member of the Argand Refining company, Marietta, while his handsome bride is an accomplished young lady well known in this city.

Thought There Was an Accident.

Residents along the river district were somewhat startled last night, by hearing loud screams coming from the middle of the stream and imagined that somebody was drowning. Two skiffs were rowed out but when they reached the scene of the supposed catastrophe they saw nothing but a skiff load of young people a short distance down the river. They repeated the yells at intervals and the rescuers returned home very indignant men. They say it will be another case of the boy and the wolf if that sort of business is repeated.

Stolen Horses.

Chief Gill has received notices from two towns where horses have been stolen lately and good rewards are offered. One horse the property of S. L. Clark, of Middleton, was hitched to a buggy, also owned by him, when driven away. The horse was a bright bay and 15 hands high. The thief was aged 30, weighed 160, light complexion, light mustache and wore dark clothes and black stiff hat.

E. F. Stringer was the other victim of a horse thief. The horse was taken from Bloomingdale, Jefferson county, and was a black 16 hands high with white spot on left side, mark of cut on hind foot and collar lumps on left shoulder.

Held No Inquest.

The funeral of J. E. Galladay, who was found dead on the Lisbon road Thursday afternoon, took place this afternoon from his late home with interment in the Lisbon cemetery. No inquest was held as Solicitor Clark had advised at the time the body was found that one was not necessary. It was plainly a case of heart disease as a sister of Thomas Beaty, of this city, saw the unfortunate man throw up his hands and fall backward from the wagon. Mrs. Galladay stated that her husband was subject to heart trouble.

Danger by Riding.

An ordinance will be passed in Pittsburg on Monday prohibiting wheelmen over 14 years of age from riding on the sidewalks, no one being allowed to ride faster than 10 miles an hour in any part of the city. Coasting is also prohibited as is riding without the wheelman keeping at least one hand on the handle bars. Especial stress is laid on this last provision.

Two Men Arrested.

Two men were arrested by Chief Gill yesterday suspected of stealing the wheat sold to C. Metsch recently. One was from the country, and the other a local man. W. J. Terrence, who got the wheat from the thief, saw both prisoners and said neither was the guilty party. He also saw John Allison, and with like result.

A Disastrous Ride.

John I. Hodson and John Gardner rode to industry on their bicycles yesterday, and had no end of experience. Mr. Hodson had a fall while going down hill which left a mark on his face, and Mr. Gardner injured his tire so that wheeling homeward was not as pleasant as going up the river.

Shot in a Fight.

Lisbon, June 8.—George Porter, a stranger, was found back of Chris Burbeck's saloon here this morning with a bullet in his leg. No one knows how he was shot and he refuses to tell, but it is thought that he was in a fight.

Fought in a Cellar.

A report was abroad today to the effect that two young potters, employed at the Dresden, had fought a five round fight in a cellar in the West End last night as the result of a disagreement. The story was denied by people who were credited with being present.

He Is Improving.

Doss Huffman, proprietor of the Washington House, who was seized with hemorrhage some time ago, is improving rapidly and has almost recovered.

Lost the Tools.

The drilling of the Diamond well was delayed this morning by the tools being lost in the deep hole. They were recovered after considerable work.

Came From Bridgeport.

J. W. Brown has moved his household goods and family from Bridgeport, and will reside in this city.

SOME NOT SATISFIED

Trial Over Fourth Street Extension May Be Necessary.

THERE WILL BE NO DELAY

So Far as the City Is Concerned—No Objections Yet Filed With the Solicitor. The Patrol Station Case Is Ended and With Little Cost.

The extension of Fourth street has not been completed yet by a few, and the chances are that the courts will have more to do with it than expected before the work is begun.

The first thing Solicitor Clark heard upon his return from Lisbon was that there were objections from several property owners who had apparently been satisfied when the different pieces of land were purchased by council at the prices asked on Monday evening last. Just who had registered kicks could not be learned and none of them have so far appeared to tell the solicitor all about it. The case comes up on Tuesday next at Lisbon. In case the reported kicks fall to appear a jury will be empaneled and return verdicts in accordance with instructions from the court, occupying a very small portion of the time. Otherwise there will of necessity be delay, but it will not be long before the trial is under way. If the matter is taken to court a trial will occupy almost a week as there is no limit to witnesses where 11 pieces of property are in dispute.

Smith's Ferry Notes.

The Christian Endeavor society of the Presbyterian church will give a lawn fete in front of the hotel on Wednesday evening. The society extends a cordial invitation to all East Liverpool people to be present and aid in the good work while enjoying themselves. The Fairview brass band has been engaged for the occasion.

Mrs. Sallie Dawson expects to leave in a few days for a visit with friends in Philadelphia.

A reception was given at the home of Joseph Smith last night in honor of Misses Moore and Roberts of Wellsville. It was an enjoyable affair.

Miss Bessie Camp is visiting her sister, Mrs. John Thompson, in the country across the river.

Miss Cora Ralston is the guest of friends in Ohioville.

Bill and His Woes.

Bill Farmer was at city hall this morning and had several axes to grind. He wanted to see his friend John Allison, and then to have some young men arrested for calling him bad names and lying in wait for him with "weepsens." The weapons consisted of an axe and a pitchfork, and Bill claimed they jabbed the fork at him viciously. His tormentors were located in a loft of the patrol barn, and after Bill had visited Chief Gill several times the chief ordered Patrolman McMillan to clear the loft of all loafers and see that all foolishness was stopped.

Summer Sickness.

Mrs. Patterson, mother of Monroe Patterson, is quite ill at her home in this city with an attack of brain fever.

John Rose, circulation agent of the NEWS REVIEW, is confined to his home on Jefferson street by an attack of typhoid fever.

John Stoffel, who resides at the foot of Second street, was seized with pleurisy last night, and for a time his life was despaired of. He is better today.

It Was Cold at the Campground.

People who have taken up their abode at the campground say that it was cold out on the hill tops last night, but not too cold for comfort. The low temperature was a pleasant relief from the torrid heat of the city, and they are louder than ever in their praises of the place. It is prophesied that by the end of next week every cottage will be filled, with applications for others.

Where to Find It.

Is it not about time for some developments in that mysterious case of suspected murder rivaling the once famous Conkell case, which the East Liverpool NEWS REVIEW recently published?—Salem News.

Watch the columns of the NEWS REVIEW, my boy, and you will probably find it before the next grand jury convenes.

To Decorate a Grave.

The Maccaebes will meet in their lodge room tomorrow afternoon at 4 o'clock, and will march to Riverview cemetery where they will pay respect to the late Mr. Ray, one of their number, by decorating his grave. It is a custom of long standing in the Maccaebes. Mr. Ray is the only member of the lodge who is buried in this city.

If East Liverpool, Lisbon and Salem
can not induce the eastern men to
build that electric road they should
hide their heads in the dust and put
crape upon their charters.

SENATOR BRICE is a candidate for
the senate. He doesn't care who is
governor of Ohio. That has no interest
for him. He wants the legislature,
and he will not go to sleep until he
knows what the voters will do. As
the Toledo Blade is wont to remark, it
will pay the Republicans to keep an
eye on the colonel.

SOME FIGURES.

Some genius has evolved the follow-
ing conclusion from abundant mat-
erial at Washington, and the Toledo
Blade advises that it is a convenient
answer with which to meet the cam-
paign liar. It is a story in less than a
stick:

McKinley law (normal period);
monthly surplus, \$705,135.

Wilson law (normal period); monthly
deficiency, \$6,301,550.

McKinley law, first nine months,
surplus, \$16,152,564.

Wilson law, first nine months, de-
ficiency, \$56,713,950.

Average yearly surplus, McKinley
law (normal period), \$8,467,620.

Average yearly deficiency Wilson
law (normal period), \$75,618,600.

A LITTLE ROW.

The Democrats are worried. They
are feeling blue. All the spring sun-
shine and glories of the season have
departed. To them the sweet singing
of birds and the low sighing of breezes
amounts to no more than the whirr of
a buzz saw. A few are thinking many
are swearing, and the rank and file
are wondering why they should be
held as slaves subservient to the all-
powerful Brice, of New York. The
whole trouble lies in the date for the
coming convention. Allen W. Thur-
man, the uncontrollable free silver ad-
vocate, has broken loose with the de-
mand that the party be allowed to
make a fight on the merits of its con-
victions, and get into the race at once.
In his demand he is supported by a
few leaders with power, and the main
body of what is left of the party, but
Brice is on the other side. The wily
chieftain has no desire to let his power
slip from the hands that have held it
so long, and fearing the party weak-
ness if the platform contains a silver
plank, he is pounding away in the hope
of obtaining a convention that will
follow his hand with as much ease as
an ox with a ring in its nose. Hence
these tears.

A QUEER OLD ENGLISHMAN.

Thomas Laughter and His Curious Expe-
riences, Physical and Otherwise.

Thomas Laughter, who is said to have
died at the age of 112, has an amusing
record that connects him with Holborn.
He was a well educated man, for he had
studied at Christchurch, Oxford, for 12
years. In early life he had been a wine
merchant in Tower street and failed,
owing to the failure of a very large
house in the same trade, Neele, Fordyce
& Co. It so affected Laughter that he be-
came blind and speechless, and the skin
peeled off from the whole of his body.
Though a wine merchant, he never
drank any fermented liquor for the first
50 years of his life. The old man's
memory was prodigious. He well re-
membered, in 1705, seeing Queen Anne
going to the house of peers, seated on a
pillow behind the Lord Chancellor, and
he talked about the death of William
III. He had been a well made man,
rather above the middle height. At 80
he had a severe fit of illness, and then a
fresh head of hair came, and new nails
on the fingers and toes. A contraction
that took place in the fingers of each
hand at this instant remained always
after. Nothing is said about new teeth
coming in his case, and he must soon
have recovered sight and speech, which
misfortune had deprived him of so
abruptly.

He had a son, who died at the age of
80, and whom he always called "poor
Tommy." This boy of fourscore looked
very much older than his father, and the
fact led to some curious mistakes on the
part of strangers who saw them togeth-
er. Once, when they were walking in
Holborn, the son could scarcely keep
pace with the father—in fact, with so
great difficulty and distress did he do so
that he attracted the attention of a gen-
tleman, who went up to old Laughter to
expostulate with him on his want of
filial duty in not aiding more his ven-
erable father. The old man told him of
his mistake, but the stranger refused to
give the least credit to his assertion un-
til somebody passing at the time, who
knew the Laughters well, certified to the
perfect truth of the story.

All four turned laughers then; at
their separation all Holborn beamed
with smiles, and grew quite radiant for
a moment, but the next second it relapsed
into its bustling but somewhat mel-
ancholy quotidian business—chasing hunt-
ing. One fellow amused at this fussy moralist,
who showed such prevailing anxiety
and officiousness to direct others in the
path of virtue, smiting, as the note, un-
conscious of the beam.—Notes and Que-
ries.

ASKING THE CAPTAIN.

Just What Happened When Information
Was Sought From the Commander.

"Once on an ocean steamer," said a
traveler, "we had a heated shaft bear-
ing, or something of that sort, so that
the engines stopped for five or six hours.
I had often read and heard about how
the captain was the great mogul aboard
ship, how about all the things pertaining
to the affairs of the ship he held aloft
and must not be approached by the pas-
sengers, and that it was a sort of viola-
tion of the unwritten rules of the sea
for a passenger to ask the captain any-
thing. And there may be some reason
in all this; if one passenger might ask
him, 40 might, and surely the command-
er of the ship ought not to be unneces-
sarily disturbed by useless questions.
We had been lying there three or four
hours waiting. There was no danger
whatever, but it was a delay and an in-
cident of interest, and of course all the
passengers talked about nothing else—
the common information was that the
delay was due to a heated bearing.

"I was standing on the upper deck
by the door to the main companion way
leading to the deck below. The captain
came along the upper deck from the
after part of the ship and went below
by that companionway. He must pass
within a foot of me, and under the cir-
cumstances it did not seem like a vi-
olently unreasonable breach of salt water
etiquette to ask him what was the mat-
ter, which I did. A passenger who stood
on the other side of the doorway looked
at me with the amused smile of an older
traveler. The captain said nothing. He
simply passed on, and to all outward ap-
pearances quite unconscious of my ques-
tion or even my presence."—New York

DUN'S TRADE REVIEW.

Tide of Business Rising With
Surprising Rapidity.

CROPS THE SERIOUS PROBLEM.

Will They Be Full Enough to Sustain a
Large Business—The Outlook Brighter,
Iron Trade on the Boom—Failures For
the Week.

NEW YORK, June 8.—R. G. Dun &
Co.'s Weekly Review of Trade issued
today says: The tide of business is
rising, even as it was falling just two
years ago with surprising rapidity. The
grain has gone so far and so fast in
some branches that the more conserva-
tive fear it may not be maintained.
But the period of dullness which comes
in each market after an unusual rise
brings as yet nothing like a correspond-
ing decline. Industries gain much,
halt or fall back a little and then gain
once more. The demand for consump-
tion steadily increases as the employ-
ment and wages of the people increase.
Demand for money expands, one bank
reporting 29 per cent larger in the dis-
counts for the country and another 23
per cent more commercial loans than a
year ago and all but two report some
gain.

The serious question remains, whether
the crops will be full enough to sustain
a large business. But the worst reports
today are better by far than the esti-
mates recently current. Wheat rose 2
cents, fell back 2 and has again risen
3, with a western estimate of a crop
80,000,000 bushels smaller; than last
year. It is pertinent to remember that
official and most unofficial reports, down
to a late period last fall, put the yield
about 80,000,000 bushels lower than it is
now known to have been. Western re-
ceipts were 264,000 more than last year
and in five weeks have been 7,671,031
bushels against 6,991,650 last year while
Atlantic exports, four included, 670,000
bushels higher for the week, have been
in five weeks 7,733,725 bushels against
11,945,478 last year. There is neither
holding back by farmers nor anxious
haste in purchasing by foreigners to
support belief in scarcity.

Iron pushes rapidly upward like the
great buildings into which so much of
it goes and the advance in finished prod-
ucts has become general. Of structural
steel 12,600 tons were turned out
in May by the Homestead works, break-
ing the record, and prices rise 1.3 cents
for beams and 1.2 for angles. The
Eastern Bar association has raised the
price of refined iron to 1.1 cents, and
the Amalgamated Association demands
of Pittsburgh and western makers a
change of wages with 1.1 cents as the
basis. Coke producers are said to have
substantially agreed upon sales by an
agency and an allotment of the output
and an advance in price to \$1.50 or
higher. Chicago works are in full
operation, though the demand from
agricultural implement makers lags be-
cause the coming harvest is in doubt.
Tin is weaker with a rise in the world's
visible supply to 25,671 tons, about five
months' consumption, but copper is
strong at 10 1/2 for lake and lead higher
at 3.3 cents.

Failures during the past week have
been 195 in the United States, against
216 last year, and 25 in Canada, against
40 last year.

Russia Won't Fight Turkey.

ST. PETERSBURG, June 8.—The opin-
ion prevails in official circles here that
Russia, while doing the best possible
under the circumstances for the welfare
of the Armenians, will not risk a con-
flict with Turkey, as the development
of the question in the extreme direc-

would only endanger the quietude of

THE BIG PRIZEFIGHT.

Dan Stewart Satisfied the Two Pugs Mean
Business.

NEW YORK, June 8.—Dan Stewart
has had a conference with Joe Vendig
and W. A. Brady, Corbett's manager.
After they separated Mr. Stewart said:
"I am now perfectly satisfied that the
men mean business and that the fight
will be brought off at Dallas on the
last day of October next. All the de-
tails have been arranged satisfactory to
every one concerned, and nothing now
remains to close the matter up, except
the posting of the guarantee of \$5,000
from each of the principals. Mr.
Brady has assured me that Corbett's
money will be up today, and I expect
that Fitzsimmons, or his representa-
tives will also be on time with a sim-
ilar amount. The people whom I re-
present are solid business men and there
will be no possible chance of a slip up
occurring.

Emanuel M. Friend, who is the legal
adviser of Fitzsimmons, says: "I am
so busily engaged on the trial of Police
Inspector McLaughlin that I cannot at-
tend to anything else until it is con-
cluded. However, you can rest assured
that the money to guarantee the ap-
pearance of Fitzsimmons in the ring
will be in the hands of the stakeholder,
Mr. Phil Dwyer, before many hours
have elapsed."

MR. HARRITY SAYS NO.

No Necessity For a Democratic Money Convention.

WOULD BE HARMFUL TO BUSINESS.

It Would Also Be Prejudicial to the Welfare of the Democratic Party—No Meeting of the National Committee Until Next Winter.

PHILADELPHIA, June 8.—Chairman William F. Harrity of the Democratic national committee has received a number of inquiries, as to whether he intended to call a meeting of the committee at an early day to decide whether or not a national convention should be called to take action on the money question. In order to relieve the mind of anxious Democrats with regard to that matter, he has written a letter in which he says:

"I do not expect or intend to call a meeting of the Democratic national committee until next winter, when it will meet for the purpose of fixing the time and place for holding the Democratic national convention of 1896, unless I shall be requested to do so by the requisite number of the Democratic national committee."

"I do not believe there is any necessity for a convention at this time; on the contrary, I am of the opinion that to call one now would be harmful to the business interests of the country and prejudicial to the welfare of the Democratic party."

Mr. Harrity said he had nothing to add to what is contained in the letter.

WHEAT TAKES A JUMP.

It Goes to 81 in Chicago and 84 in New York.

CHICAGO, June 8.—Helped by crop damage reports and strong cables wheat started with a promise of a wild advance, but became tame later under heavy realizing sales, closing but 1/2 cent higher, and 1 cent under the top figures. The range in price for July at the start was from 80 1/2 to 81.

A New York special says: A flurry in wheat due to renewed active country buying and bad crop news, set local grain speculators in a whirl of excitement for a while. July jumped 1 1/2 to 84 cents at the start, and in the face of full realizing and efforts of the bears to break, prices refused to go below 83 1/2 cents for a time, when, with the help of a sharp decline in corn, wheat was dropped to 83 cents, closing at that figure.

In their protest they recite the fact that at the time their nets were taken by force by the Canadian vessel, they were beyond the slightest doubt in American waters. The firm will ask the government to determine for the benefit of United States fishermen whether the lake is 54 or 60 miles in width at points, where the nets were seized, and it is thought this is an ample point to all men engaged in fishing.

OLNEY AND HARMON.

The President Announces the Cabinet Changes.

OHIO MAN ATTORNEY GENERAL.

A Prominent Cincinnati Attorney Takes Olney's Old Place—Hadn't Been Mentioned Among the Probable Appointees. Recommended by Carlisle and Campbell.

WASHINGTON, June 8.—The announcement of the transfer of Attorney General Olney to the head of the state department created no surprise here, as it has been well understood for several days that Mr. Olney would succeed to the first place in the cabinet, made vacant by the death of Secretary Gresham.

The president, at one time, contemplated other changes in his cabinet, and in this connection consideration was given to the transfer of Secretary Smith to the department of justice, but this and other transfers were finally abandoned, and the president concluded that the simplest plan would be merely to fill the vacancy caused by Mr. Olney's promotion.

The appointment of Judge Judson Harmon of Cincinnati to be attorney general came in the nature of a surprise. His name had not even been canvassed as among the probabilities. There is the best of authority for the statement that the president had several men under consideration, and the portfolio of justice might have been had by Mr. James C. Carter of New York, who was counsel for the government in the Bering sea tribunal, and the income tax cases, and by Mr. Frederic R. Condit of New York, had they been disposed to accept it.

Secretary Carlisle knew Judge Harmon personally, and both admired and respected his ability. It was he, probably, who first presented his name to Mr. Cleveland. Ex-Governor Campbell of Ohio, a close friend of Judge Harmon, also warmly supported him, and the president secured also from ex-Governor Hoadley of Ohio, who is now living in New York, and whose law partner Harmon was, most favorable reports as to his ability and standing. After canvassing the situation thoroughly the president offered the portfolio of justice to Judge Harmon by wire, and immediately upon receiving a favorable reply, announced the appointments.

A Cincinnati special says: When the appointment of Judge Judson Harmon became known here, attorneys from the courts and their offices rushed to the office of Harmon, Colston, Goldsmith & Hoadley to congratulate the new attorney general and ask for a date for a farewell dinner from the bar. Judge Harmon said he received a letter from President Cleveland yesterday and replied to it by wire, but he had no knowledge of his appointment till advised by newspaper dispatches. He went to Columbus last night on personal business and does not know when he will go to Washington.

Judge Harmon is not only recognized as one of the foremost lawyers and jurists of this state, as one of the most popular citizens. He was born near this city 49 years ago, has always lived here and is known by all. His father, Rev. B. F. Harmon, was a Baptist minister, well known throughout the Ohio valley. Judge Harmon graduated at Dennison university, a Baptist institution, and Granville, O., in 1866, and began the practice of law in Cincinnati in 1869. He was a Republican until 1872, when he (Greelyized). He was elected superior judge in 1878, re-elected in 1883, and when ex-Governor George Hoadley went to New York, in 1887, Judge Harmon resigned from the bench to become the head of the firm of Harmon, Colston, Goldsmith & Hoadley, which represents several railroads and other large corporations, and with which firm he will continue his connection.

When Judge Harmon resigned in 1887 Governor Foraker appointed Judge William Taft, now United States circuit judge, and formerly solicitor general, to the vacancy. Mrs. Harmon is an accomplished lady, the daughter of the late Dr. Scobey of Hamilton. They have three daughters, Mrs. Edman Wright, Jr., of Philadelphia; Miss Elizabeth, a recognized society leader, and Marjoria, the youngest of the family, who is 14 years old.

A Columbus special says: Judge Harmon, the new attorney general, is in the city with ex-Governor Foraker and Judge Warrington of Cincinnati, for the purpose of securing, if possible, from the auditor of state, a modification of the Rawlins law taxing beer \$2.50 a barrel, in order to permit Cincinnati brewers to compete outside the state.

Judge Harmon said the first intimation of his appointment was received from a newspaper dispatch. "If any one had told me Thursday," he said, "that I was to be appointed to a cabinet position, I would have thought he was talking 'through his hat.' The last time I saw President Cleveland was in Columbus at the time of the Thurman banquet six years ago. Yesterday morning I received a letter from Mr. Cleveland asking me if I would accept the position of attorney general. As I did not want to reply without consulting my law partner, Judge Colston, who is in New York, I immediately telegraphed him, and securing his consent at 2 o'clock, telegraphed President Cleveland that I would accept. I have not received any official notification of my appointment."

When Judge Warrington, who was present, remarked that Judge Harmon would leave one of the most lucrative law practices in the state the latter remarked that the position of attorney general was one that would tempt any one who loved his practice. Judge Harmon will probably leave for Washington next Monday.

LOCAL BREVITIES.

Born to Mr. and Mrs. John Vodrey, Robinson street, a son.

A number from this city will attend a dance to be given in city hall, Wells-ville, this evening.

Several enthusiastic kilnmen from Laughlin's pottery rode to Beaver Falls on their wheels this morning.

A pair of Walnut street youngsters got a bath in the river near the pumping station last evening. They were playing on the rocks and fell in, but without disastrous results.

Elmer Hancock, an East End wheelman who has been journeying around New Cumberland, Toronto and Yellow Creek, broke his saddle yesterday and rode home under difficulties.

The Ceramic City Cycle club members could not relinquish the pleasure of a ride in the balm air last evening, and no meeting was held, there not being a quorum present.

The Steubenville presbytery will meet in the Second United Presbyterian church, East End, on Tuesday evening next, to install Reverend Green pastor of that church.

It is strange but none the less true that not a Columbian county boy passed the last examination which resulted in making a lot of lawyers at Columbus this week. Perhaps none were entered.

The Young People's society of Christian Endeavor, Second Presbyterian church, East End, will give a lawn fete in that section of the city on Monday evening and a large crowd from the city proper is expected.

Mr. and Mrs. Alexander Green, of Grove City, Pa., have moved their household goods to East End and are now located in one of H. A. Weeks' houses. They are the parents of Rev. J. R. Green, pastor of the Second United Presbyterian church.

The trolley wire was down at Thompson pottery last night, and the usual inconvenience resulted. The hour being late and the passengers being few several cars were run into the power house, and the remainder did the work on the line. Constant practice has given the repair crew ability, and they repaired the break in short order.

Each day brings strangers to the city in search of work. Yesterday a grizzled stranger and his young son arrived from Buckhannon, W. Va., as the man explains it "where the deer and rattlesnakes live." He was looking for employment, but said he would not wait long for a chance if work was slack in the pottery, but would hie himself back to the woods. He stopped at the home of A. J. Gallo-way in Helena.

The house to which the fire department was called on Kossuth street yesterday afternoon was occupied by two English ladies, Mrs. Goodwin and Mrs. Tetsley, and owned by Walter Bettridge, as mentioned in the News Review. The damage was slight, but the blaze was beginning to get dangerous when the workmen of the Union pottery arrived on the scene with water buckets. The ladies were badly frightened.

The Eclipse base ball club, rejuvenated and reinforced, state that they are ready to wipe the earth with any club in all this broad land. They would prefer to cross bats with the Young Men's Christian association team at an early date. The Eclipse club held a meeting in the mayor's office last night and as there was considerable talk of Lisbon desiring revenge for the last victory of the Liverpool team, it is probable that they will be accommodated.

Wheelmen complain afresh as the people residing between this city and Smith's Ferry continue to obstruct the roads by placing coal and slate taken from the banks in that section along the road. The supposed improving substance is merely a covering for heaps of rocks, and the rider feels thankful that he is alive if he gets over the exceedingly bad road. The supervisors evidently do not work on the plan that the way to improve the highway is to improve.

Canton Rhodes and all the other Odd Fellows in the city are arranging for their memorial services, which will be held on June 18. The Canton will march to Riverview cemetery in the afternoon, and after decorating the graves of the deceased members they will return to take part in the exercises at the hall. It is not generally known that Canton Rhodes instituted the ordinance among Odd Fellows, and was the first in Ohio, perhaps in the country, to remember the dead in this way.

They tell a good story of a young woman whose father wears glasses and whose brother rides a bicycle. She had been reading that the use of alcohol would clean the cork grips on the handle bars and keep them bright and shining. Noticing that the cork on the grip of her father's glasses were not as bright as they used to be she applied the same remedy, and there was fun in the family when he put them on his nose a few minutes afterward. Now that young lady does not believe in bicycle receipts.

White Goods.

We told you it would come. We were sure that it would be hot this week. If you were trying to think of a cool-looking and cool feeling costume your mind no doubt would turn to White Goods. No other material takes the place of the dainty little Dotted Swisses. Do up like white muslin and look as cool as a dress can. If you are not sure that you want a Swiss, we are positive we can please you in a checked or striped Mull. Then our prices on India Linens and Victoria Lawns are from 3c to 5c per yard less than you have been paying for them. You may look all over town, then come to our store and we will show you more White Goods, Embroideries and Laces than you had any idea was being shown in East Liverpool.

Wash Goods.

All stores show a line of these goods this time of the year. You can buy a Wash Dress in any store, but just where to get the newest things—something just a little out of the ordinary—that's the question. Come and see what we are showing. Our styles are exclusive, and while it may only be a dress that will cost you 10c or 12c per yard, we guarantee to give you more style for that price than you will find elsewhere.

Parasols and Sun Umbrellas.

We opened a new lot today. A nice 24-inch parasol, white top, white ribs, white crook, for \$1.00 each. We have better ones, running up to \$3.00 and \$4.00. A nice line of Children's Parasols that we guarantee to make good thickening for mud pies; or if your children don't make mud pies, we insure the tips too blunt to poke out their playmates eyes.

Shirt Waists and Wrappers.

Just the kind of weather to set you thinking about them. It's too hot to make them, and if you do, you run the risk of them not fitting. If you look at our styles and get our prices you won't make them. The "JUSTINE" is the ideal.

Black and Colored Dress Goods.

We are cleaning them out. Your time against ours to prove to you that we can save you money. We don't quote prices. Come and see.

WELLSVILLE.
WELLSVILLE CASES.
Disposed of in Lisbon Yesterday Afternoon.
Special to NEWS REVIEW.
Lisbon, June 8.—The case of
Frank Maple, who was charged with
receiving the goods stolen from
the Wellsville shops by young
Leith, was in court today, and
the boy said he was guilty and was
fined \$25 and costs. This winds up
the case.
John Patterson, the Wellsville
saloonist who was charged with
selling liquor on Sunday pleaded
guilty, and was fined \$25 and the
costs. He also got 10 days in jail as a
reminder that money can not heal all
the breaches in the law.
The long drawn out case of Lafount-
tain against the Perpetual Loan and
Savings company was decided by the
jury yesterday afternoon. The
amount involved was an order given
by the company to P. M. Smith for
\$50. This was transferred to the
plaintiff who could not collect it.
He took the thing into court, and
was presented with a verdict. The
case has been on the docket for some
time.
SUCCESSFUL.
The Pioneer Pottery Stockholders are
Cheerful.
The stockholders of the Pioneer pot-
tery held a meeting last night, and
heard the report of the committee ap-
pointed to ascertain the feeling of the
stockholders toward buying up the un-
secured claims at 50 cents on the dol-
lar. They had seen all but a few of
the stockholders, and the majority
were favorably inclined toward the
idea, and had subscribed to the fund.
The meeting was adjourned until
next week when the committee expect
to make a complete report. The stock-
holders are anxious to get the plant
out of the hands of the receiver, and
want to place it in operation.

band died two months ago. The fun-
eral will take place at 9 o'clock tomor-
row morning, with interment in High-
landtown cemetery. Reverend Shelby
will preach.
Will Test the Law.
Howard Kerr, of East Liverpool, was
prohibited from distributing bills here
recently. He has shops in both cities
and upon reading the law found it al-
lowed him to do as he had attempted.
He will have his bills distributed
Monday or there will be a law suit.
The Old Tuscarora.
The members of the old Tuscarora
club have been discussing a reunion
these past few days, and have de-
cided to picnic in Meehan's grove over
the river next Thursday. They will
take their lady friends along.

closed so far as police court is con-
cerned.
Another Death.
A child of Paul Scarlott an Italian

was buried in Catholic cemetery to-
day.
THE ONLY LINE.
The Pennsylvania Is the Best Line to
the East.
East Liverpool people who desire to
visit any of the Atlantic seashore re-
sorts during the summer season should
not forget the Pennsylvania lines. The
road from Pittsburg is equipped
as well as any in the land, and the
employees are devoted to the care of
passengers. The trains going and re-
turning from all the resorts on the
seashore and in the mountains have
been scheduled to give all the conven-
ience possible, and no time is lost on
the way. Special excursions will be
run during the season, and East Liver-
pool people will save themselves the
inconvenience so often noted on other
lines if they only take the Pennsylva-
nia. Agent Adam Hill will tell you
all about it.

club.

returned this morning to her home
near Wattsville. Mrs. Reed and
children accompanied her for a few
weeks' visit.
A Foreign Coon.
John O'Hanlon, at Potts' store, was
the recipient of a handsome coon last
night, with all express charges paid.
No note came to explain who was the
donor, but a few words on the tag in-
formed the clerk that the next pres-
ent would be a polar bear. A lurking
suspicion tells the clerk at the store
that T. L. Potts caught the animal on
his farm near Salineville.
Play at Bethany.
The Bethany college team have ac-
cepted the offer of the Young Men's
Christian association boys, and will
give them two games during com-
mencement week. The dates are
June 18 and 19. No more Saturday
games will be played by the club if
the patronage is not large this after-
noon.
Did Not Meet.
The board of health did not meet
last night, the only faithful member
being the president, Mayor Gilbert.
He was around as much waiting for
victims as anything else, however,
and calmly took his departure when
at 8:30 o'clock no sanitary man had
appeared.
Taxes Received.
Having tax duplicate of Liverpool
and St. Clair townships I will be at
the office of J. N. Rose from June 10
to 10th, all day and evenings of fore-
going dates and will forward tax for
not to exceed 25 cents.

vinced.

LOOK OUT FOR BREAKERS AHEAD
when pimples,
eruptions, boils,
and like mani-
festations of impure
blood appear. They
won't appear if
your blood were
pure and your sys-
tem in the right
condition. They
show you what you
need—a good blood-
purifier; that's what
you get when you
take Dr. Pierce's
Golden Medical
Discovery.
It carries health
with it. All Blood,
Skin and Scalp Dis-
eases, from a com-
mon blotch, or eruption, to the worst
Scrofula, are cured by it. It invigorates
the liver and rouses every organ into
healthful action. In the most stubborn
forms of Skin Diseases, such as Salt-
rheum, Eczema, Tetter, Erysipelas, Boils
and kindred ailments, and with Scrofula,
in every shape, and all blood-taints, no
matter from what cause arising, it is an
unequalled remedy.
SCROFULOUS ABSCESSSES.
Mrs. Belle Sweeney, of Flat Top, Mercer
Co., W. Va., writes: "About four years ago I
took scrofula, and did
everything that doctors
and others prescribed,
but only got worse.
Several abscesses formed
about my neck and
breast, discharging a
quantity of matter. I
got so weak I could
scarcely walk about the
house. I read all the
medical works I could
get hold of, and among
the rest, read some of
your works. You de-
scribed my case, and
recommended Doctor
Pierce's Golden Medical
Discovery with his
'Pleasant Pills.' So
I procured some and commenced using them and
soon began to mend. In six months my sores
were all healed up. I am forty-five years old
and believe I am as stout as I ever was in my
life. I used about one dozen bottles of the
'Golden Medical Discovery' with the 'Pleas-
ant Pills,' and used nothing else after I began using
your medicines."
Council Will Pay.
The bill of costs in the Timothy
Burns saloon case will be paid in an
unusual manner, owing to the proceed-
ing advised by the court. As Burns'
bond will be held for the amount
council will have to pay jury and wit-
ness fees from city funds and wait un-
til the higher court decides.
FOR SATURDAY'S TRADE.
Received today a large line of
new wash goods in colors and
white, including Dimities,
Lawn, Organdies, Ducks, Pon-
gees, Dotted Swisses, Plisse
Francaise, and all the latest
things the market affords.
Prices range from 8 cents to 25
cents. It will pay you to buy
wash goods at
THE BOSTON STORE,
138 and 140 Fifth street.
A. S. Young, Prop.
Settled.
The patrol station muddle has been
finally settled, and the costs in the
case, outside Solicitor Clark's fee,
was only \$33. This includes Colonel
Hill's fees for prosecuting. This is
apparently the best settlement of any
city case for many months.
Mrs. Dr. Harkey Adams will be at
the Grand Hotel, June 15. Let all
afflicted, who desire to regain their
health and strength, call.
What gives strength and energy in
this warm depressing weather? Why
Kola, of course. Chew Kola gum.
Repairs Not Completed.
Owing to the inability of the owners
of the Water Maiden to complete the
repairs the boat will not carry passen-
gers from the wharf to Rock Spring
tomorrow. Some needed portions of
the rudder have not yet arrived in
spite of an order to rush.
Nothing equals Kola to give
strength and vigor when the day's
work is done. Chew Kola gum.
Do your eyes need attention? Call
on Dr. W. T. Adams, at Grand Hotel,
June 15.
Kola gum prevents "that tired feel-
ing."
Promise a Surprise.
The Ceramic City Cycle club boys
have a big surprise in hand for the
people who like pretty sights, and
may spring it upon the public at any
time. The plan is only a thought at
present, but it will develop and grow
strong until consummated.
When you see people walking with
an elastic step, you may depend upon
it they chew Kola gum.
The people who keep the world
moving are those who chew Kola
gum.

ONE HEAD USHER.
The Ways Wherein He Differed From
Others of His Calling.
It is as old as the Proverbs that the
cobbler's children are always poorly
shod.
The restaurant man goes home for
dinner, and the bartender is a total ab-
stainer.
The druggist may patronize the faith
cure and the railway man knows of no
greater luxury than a ride in a buggy.
The street car conductor is glad to get a
day off, so he can take a long walk.
A more remarkable case than any of
these is that of the head usher at the
theater, and one theater in particular.
Probably every playgoer in Chicago
knows him. The title of "head usher"
does him an injustice. He is more like a
host or the chief of a reception commit-
tee.
There are head ushers who pounce
upon you, grab the coupons, thrust them
back into your fumbled hands and shout,
"First aisle to the right!"
There are other head ushers who tell
you to hurry up or step lively. They
give loud warning that all coupons must
be ready.
They shout, "Hey, there!" and are
constantly distracted because of the im-
mense responsibility which they imagine
is resting upon them.
As soon as a snippy young man gets
into a box office or is engaged as an
usher, he begins to imagine that he
owns the house, the company and a good
part of the frontage in the block.
But the exceptional head usher is
calm, polite, attentive and solicitous.
No matter how rapidly the crowd may
pour in, it seems that every one who
comes receives some courtesy at his
hands.
He doesn't shout or grab and the
small children are not afraid of him.
The most remarkable thing about this
model master of ceremonies, however,
is that he knows very little about actors
or plays.
The other evening, when the house
was crowded and the performance was
being received with noisy approval, a
man who came into the foyer between
acts remarked to him, "Well, it's a
funny show."
"I dare say," he replied; "the house
seems to like it."
"Didn't you see it?"
"No; I was out here all the time."
"Is that so? Don't you step inside to
see the performances?"
"Oh, no. My duties keep me here. In
the 15 years that I have been in this po-
sition I have never seen a performance."
At first the man wouldn't believe it,
but it was a fact just the same.—Chi-

TRICKING A CRAB.
African Natives Take Advantage of His
Industry in a Heartless Manner.
In Africa there exists a certain mem-
ber of the crab genus commonly known
as the great tree crab. This peculiar
shellfish has an offensive trick of
crawling up the coconut trees, biting
off the cocoanuts and then creeping
down again backward.
The theory is that the nuts are shat-
tered by the fall, and the great tree crab
is thus enabled to enjoy a hearty meal.
Now, the natives who inhabit regions
infested by this ill conditioned crab are
well aware that the lower portion of the
crab's anatomy is soft and sensitive, and
they believe that the "bivalve" was
thus constructed in order that he might
know when he had reached the ground,
and when, consequently, he might with
safety release his grasp of the trunk.
So what they do in order to stop his
depredations, which often ruin the co-
conut crops, is this: While the crab is
engaged in nipping off the cocoanuts
they climb half way up the trees and
there drive a row of long nails right
around the tree, allowing an inch or so
of the nails to project.
The crab has no knowledge of disas-
ter, nor yet the fitness of things. As he
descends the sensitive part of his body
suddenly touches the nails. Thinking he
has reached the ground, he naturally
lets go. Instantly he falls backward and
cracks his own shell on the ground.—

"E Pluribus Unum."
The circumstances attending the
adoption of the legend "E Pluribus
Unum" as the motto of the United
States have never been fully explained
by the historians. It was probably used
on coins—and some say upon early
colonial flags—long before it was regu-
larly recognized by the leading officials
of the new republic. The oldest coin
bearing the motto in full is a colonial
cent coined by New Jersey in the year
1786. The same year it appeared on a
small medal recognized among the col-
lectors of coins as "the confederatio."
This medal was a national token, I be-
lieve, and was coined by authority of
the general government. It bore on one
side 13 stars and a blazing sun, the lat-
ter surrounded by the word "Confedera-
tio," which gives it the name by which it
is known to the numismatists.
The words in the headline are un-
doubtedly from Virgil's "Moretus," a
poem devoted to a description of a cer-
tain salad! In the rhyming recipe he
gives instructions for mixing the proper
herbs and pounding the same in a mor-
tar until the various colors blend as one.
Some one has very appropriately said
that "the colonies were mixed in the
mortar of the Revolution and came out
as one homogeneous nation."—St.
Louis Republic.
